

Course Description Form

Course number and section: VISA 108 001

Course Topic: Visual Communication

Credits: 3

Term: W2

Instructor: Myron Campbell

Expands on digital media in contemporary art practices through computer imaging, animation, and other emerging digital technologies. This course is designed to extend the student's knowledge of a contemporary art practice that engages digital technology while providing technical skills in the basics of its production through various disciplines including advanced training in computer imaging with both vector and raster graphics. Students will also have the option to pursue other areas of digital media including video and sound production, moving image, computational art, 3D modelling and 2D animation.
