

Course Description

Course number and section: VISA 110 001

Course Topic: **Studies in Photography**

Instructor: Andreas Rutkauskas

Course Description:

Studies in Photography provides students with the opportunity to learn basic camera controls and experiment with a range of photographic genres. Course lectures, readings, and participatory exercises will examine dominant themes throughout the history of photography, as well as look towards recent innovations as a means of generating creative visual projects.

Other: This course will be centered on thematic photographic assignments introduced through online presentations and workshops. Most work on photo projects will take place independently, outside of class time.
